MEGALIVING!
30 DAYS TO A PERFECT LIFE

The Ultimate Action Plan
for Total Mastery of Your Mind, Body & Character

By Robin S. Sharma, LL.B., LL.M.
Someone has well said, “Success is a journey, not a destination.” Happiness is to be found along the way, not at the end of the road, for then the journey is over and it is too late. Today, this hour, this minute is the day, the hour, the minute for each of us to sense the fact that life is good, with all its trials and troubles and perhaps more interesting because of them.

When your every thought and your every action is directed to your ultimate life goals, you become unstoppable and assured of great success and happiness. When you cultivate your mind, body and character, your life takes on powerful dimensions that you never thought possible. This book will provide you with all that you need to put far more living into your life.

Some men see things as they are and say “why”;  
I dream of things that never were and say “why not.”  
George Bernard Shaw

iii) richer relationships that really last
iv) little-known skills for self-mastery and peak performance
v) an understanding of the powerful Eastern secrets of longevity

Today is the first day of your perfect life, a life that is yours to shape into something truly wonderful and lasting. The past does not determine your future and a change towards personal excellence can happen in the blink of an eye if you will make a firm commitment to raising your life to its highest level. This program is for winners - people who know that their lives are more than their current circumstances, no matter how successful they might be at this moment. The fact that you have invested in this program sets you apart from the vast majority of people and demonstrates that you are determined to be a peak performer and condition your mind, body and character for lifelong excellence. Accept the challenge to tap into the richness of your personal potential and dare to be great!

The First Step

Now shut your eyes, take five deep breaths and picture this scene taking place many years into the future: you are in an elegant dining hall, surrounded by those closest to you (who are dressed formally and beautifully). The candles shimmer on every table and the importance of the evening wafts through the air like the aromas from the kitchen. This is your testimonial dinner, an opportunity for the people who know you best to speak about you as a person, your achievements and your contributions to those you love and to society in general. Reflect on what you would like them to say. At this dinner, in the twilight of your life, do you really want to hear that you have lived in an uninspired fashion, without passion and without concrete accomplishment? How would you feel on hearing that you did not even come close to meeting your mental, physical, financial and spiritual potential? How would you feel on hearing that your dreams,
however lofty, went unfulfilled and that you never did supercharge your life because you were always too busy trying to pay the bills and so very tired at the end of your day?

With MegaLiving! you are getting a second chance to powerfully change what you will hear at your testimonial dinner. This book is your most important wake-up call! If you follow the program daily, think about it seriously and apply the concepts regularly, making a decision from the core of your heart to live your life in a magical and special way, you will hear very sweet sounds at your testimonial dinner. The guests will happily testify to your exceptional personal effectiveness, your dynamic personality and compassion for others, your unique zest for life and your outstanding accomplishments. Becoming the very best you can be is life’s most noble pursuit. Self-mastery is the DNA of life mastery. If you want to lead a corporation, learn to lead yourself first. If you want to manage a team or a family, learn to manage yourself first. Success on the outside begins with success on the inside and if you truly want to profoundly improve the quality of your outer world, you must first improve your inner world. There is nothing more noble than learning to explore the unlimited potential of your mind and becoming the very best that you can be. This is the ultimate challenge of the MegaLiving! mastery program. Accept it with great energy and welcome yourself to the new reality of a Perfect Life.

THE POWER OF LIMITLESS LIVING

_Deep within man dwell those slumbering powers; powers that would astonish him, that he never dreamed of possessing; forces that would revolutionize his life if aroused and put into action._

Orison Sweet Marden

One of the most essential truths to recognize is the fact that the only limits on what we can achieve in life are those we create and place on ourselves. Circumstances are the creation of people and not the other way around. Peak performers, as opposed to the weak performers, have trained themselves to shape the events of their lives rather than being shaped by them. Think of the current limitations in your life, the obstacles preventing you from attaining your dreams and that state of
bliss you so much desire. You have interpreted each one of these circumstances to be a roadblock or negative element in your life when this is not the case.

One of the most fundamental of all strategies for success is also one of the most simple: there is no such thing as a negative circumstance, only a circumstance that you may learn from. There are no mistakes in life, only lessons which will allow you to grow and advance higher on the path of self-mastery. If you set limits on yourself such as “I am too young to be a multi-millionaire,” “I am not smart enough to be a world leader,” “I am too lazy to start my own business” or, “I don’t have enough money to do this,” your spirit will slowly die and you will fulfill your negative prophecy. Stop being a prisoner of your past - become the architect of your future. Every event happens for a special purpose. Every problem is a special challenge from which we can learn and prosper to new heights of achievement. Every moment is perfect in nature, whether you realize it or not. If you recognize this age-old truth, you will accept every experience with gratitude and you will see the opportunity in every event, no matter how challenging it might appear initially. If you don’t understand this principle, you will never realize the wonderful destiny that is yours for the taking.

The mind has immeasurable and vast potential that remains untapped in most people. It has been said that even the best conditioned thinkers use only about 25% of their minds. What happened to the remaining 75%? Indian yogis living high up in the Himalayan mountains have disciplined their minds to the point where they can control their so-called involuntary processes such as their heartbeat, digestion and nervous functioning. These wise sages of the East have been dipping their fingers into the vast pool of mental potential for over 5000 years and have refined mastery of the mind into a science. Through a combination of meditative techniques and breath control these yogis are able to withstand enormous amounts of physical pain and go for extended periods without food or sleep. Such is the power within every one of us. Mothers whose children have fallen under cars have, in the heat of the moment, lifted the vehicle to save their little ones. Seventy-year-old men have run marathons and
climbed mountains. There are simply no limits for a person who accepts no limits.

The human mind and spirit can perform miracles if properly used and conditioned for excellence. And yet most human minds remain uncultivated, unexplored and unchallenged. On an average day, the average person thinks about 60,000 thoughts. Even more startling is the fact that 95% of those thoughts are the same as the ones you thought the day before. Limited thinking patterns must be exploded and you must exert your tremendous mind strength to develop the habit of Limitless Thinking. Throw off the shackles of your old thinking patterns. All successful people have come to realize that your thoughts form your world and you truly cannot afford the luxury of even one negative thought. The first step to a life full of wonders is to see that your outside world begins with your inside world and every single thought must be one that will take you farther along the path of a perfect life. Your thoughts can create magic and every thing you have ever wanted. Today’s thoughts build tomorrow’s dreams.

Mahatma Ghandi, a frail, weak man roused hundreds of millions of his countrymen and brought down an empire with passive resistance. And yet he started out as a very average lawyer with a small law practice in South Africa. It was the pain of injustice which sparked his determination to improve his world and like all high achievers, Ghandi started to work on himself first. He started building his mental toughness and creating enormous discipline in his life. At an early stage, he realized a cardinal rule for life mastery: success on the outside begins within. Armed with the self-knowledge that his cause was just, this little man in the white loincloth led his country to independence.

Arnold Schwarzenegger was a young man when he entered the gym for the first time. He had skinny legs, a shrunken chest and small shoulders and came from a background where financial resources were always slim. But Schwarzenegger’s inner resources were always abundant. Shortly after his first bodybuilding session he turned to another bodybuilder and promised he would be Mr. Universe in five years. The bodybuilder laughed, but look at Schwarzenegger now. Here is a man who refuses to accept limitations on what he can do and the success that he will meet as he bounds through the rose garden of life.
As Napoleon Hill wrote in his wonderful book, *Think and Grow Rich*: “whatever the mind of man can conceive and believe he can achieve.”

So an immediate challenge for you is to weave your new habit of Limitless Thinking today. The mind is like a muscle, if it is weak it can be conditioned for strength. If you currently worry too much or live in the past, this negative habit can be erased through the exercises you will learn in the 30 day program at the end of this book. At this point, simply remember that you alone are responsible for every thought you think every second of every minute of every day and if you do not like it, you have the power to change it. MegaThinking!, the powerful habit of thinking without limitations as to what you can do, have, feel and enjoy, arrives through gradual and steady conditioning of the mind. Positive thinking is pure habit and is not easy at first if you have allowed weeds to take over the garden of your mind. But the prosperity mindset can be developed as any other habit. Habit is like building a cable: each day the action is taken, the cable becomes stronger until the point is reached where it is unbreakable. This is the point that you must and will reach with this program. As Emerson wrote: “what lies behind us and what lies in front of us pales in comparison to what lies within us.”

Now sit down and identify on a piece of paper those thoughts and thinking patterns that have held you back and limited your life in the past. Awareness of your limitations is the first stage in banishing them from your mind. Effective people are precisely aware of their weaknesses as these are the weakest links in the chain and must be eliminated. What beliefs have kept you from success, happiness, love and self-mastery? What habitual thoughts are keeping you from the peace of mind, rich relationships and ideal health that you deserve? Note them and make a decision to eradicate them from your mind. It will be hard at first and you will wish to give up but with a little persistance they will be erased.

Once you note the limiting thoughts and consciously remove them from your consciousness, it is key that you replace them with an alternative that energizes you, motivates you and fills your dreams with hope and passion. This age-old principle of the East operates from the fact that at any one instant, your mind can only hold one thought. If
the thought on the picture screen of your mind is a disempowering one, quickly replace it with a positive one. With time, the negative thoughts will be few and far between since a great law of nature is that positive always dominates the negative.

Picture yourself in your mind’s eye as you hope to be, having all you ever dreamed of having. Make a “Dream List” of everything you desire in your lifetime. It might seem silly and wasteful to think such positive and powerful thoughts in your current circumstances but there is phenomenal power in believing in positive mental pictures.

THE PROMISE OF MegaLiving!

Infinite riches are all around you if you will open your mental eyes and behold the treasure house of infinity within you. There is a gold mine within you from which you can extract everything you need to live life gloriously, joyously and abundantly.

Joseph Murphy, Ph.D.,
The Power of Your Subconscious Mind

The MegaLiving! 30 Day Program for Life Mastery is not a fad or quick-fix course that will sustain your interest for a couple of weeks and then take its place in the closet with all the other personal development manuals you have bought in the past. It is a detailed piece of research containing secret gems for life mastery prepared by studying the success strategies of both the East and the West for over a ten year period. You have dynamite in your hands whether you realize it or not.

MegaLiving! is a complete program for the transformation of your mind, body and character starting today. You have a golden opportunity to be a true master of yourself and your existence. You can make your world the bed of roses that you have always dreamed of, the decision is yours alone. If you want this kind of a magical existence, the golden key is to remember that your mind is the sole author of your success. If you master your thoughts, you master your mind. Once you master your mind, you master your life and when you master your life you master your destiny.

Past experiences, failures or trouble spots have nothing to do
with the potential that exists within you. If anything, past failure has made you far wiser and stronger than you would have been without the benefit of the experience. Pain is a teacher. Today, and every day, take complete charge and responsibility for your life and all that is in it. If you don’t have enough money and want more, decide to make changes and take determined action to realize your dreams. If you want better health and more energy, make a decision from your very core to achieve greater vitality. If you want ideal relationships, dedicate yourself to becoming the kind of person that sustains such bonds. But it will not just come to you by chance. *If you keep doing the same things every day, you are certain to get the same results every day.* Winners are no different from less successful people, they have just learned to do different things that give them their fabulous results. In the chapters which follow and in the 30 Day Program for Life Mastery at the end of this book, you will learn precisely the things that the peak performers do to create rich, fulfilling lives.

Let me ask you a few questions and please take the time to answer them (doers are achievers):

**Question** | **Answer**
---|---
Do you want to be a champion in life? |  
Do you want more mental power? |  
Do you want perfect health? |  
Do you want more energy and vitality? |  
Do you want to add fun to your life? |  
Do you want to fulfill your dreams? |  
Do you want more serenity in life? |  
Do you want more adventure in life? |  
Do you want a powerful character? |  
Do you want to live longer? |  
Do you seek self-mastery? |  

If you answered “YES!” to any one of these questions, this program will be invaluable to you and your quest for a perfect life. MegaLiving! blends the latest physical mastery and healthy lifestyle techniques with ancient strategies of the East for mental conditioning and character-building to offer a fully balanced owner’s manual for
your mind, body and spirit. It is a holistic approach to personal growth that, if applied daily and with sincere conviction, will ensure that you will soar to heights higher than you ever dreamed possible. Thousands of people have already used this program to profoundly (and quickly) improve the quality of their lives and so can you. Ignite your desire and stoke the fire in your belly for you will soon be MegaLiving!

Once you truly commit yourself to self-mastery and lifelong success, you will appreciate how easy and fun it is. Small victories lead to large victories. Once you start feeling more vital and energetic, you will start achieving even more because you cannot do good unless you feel good. This leads to another primary principle of successful living: *we are happiest when we are growing and feeling that we are contributing in some way.* The purpose of life is a life of purpose and we all, deep down, want to leave a legacy of some form or another. When you dedicate yourself to tapping into the extraordinary potential of your mind, body and spirit, you set powerful forces into play and things start to happen in every aspect of your life. And when you know that you are improving, your confidence and enthusiasm starts to blossom. And when your enthusiasm starts to blossom, your passion and energy blooms. And when your energy starts to explode you start to create opportunity after opportunity for success in your life. Perhaps the great philosopher of India, Patanjali said it best: “When you are inspired by some great purpose, some extraordinary project, all of your thoughts break their bonds, your mind transcends limitations, your consciousness expands in every direction and you find yourself in a new great and wonderful world. Dormant forces, faculties and talents become alive and you discover yourself to be a greater person by far than you ever dreamed yourself to be.”

The chapters which follow and the MegaLiving! 30 Day Program for Life Mastery will bring very dramatic results in each of the areas that matter most in your life. You will view the world differently. No longer will you feel that you never have enough time to do the things you love to do. By applying the skills you will learn, you will shape your circumstances and achieve the things that are important to you. No longer will you feel like a leaf floating in the Fall wind, with no control of your time and your life. By using the straightforward techniques offered, you will attain a level of personal effectiveness that might
startle you. The essential point to understand as you continue to read is that you are no different from any of the peak performers before you. You have the “right stuff.” If others have achieved results which you want, they are simply doing things a little differently. Perhaps they are running their minds a little more effectively or managing their time more meticulously. Perhaps they are using the power of the knowledge around us more diligently or living a more disciplined, principled life. Once you start to apply the tools for lifelong success which follow, you will also see the results you have hoped for. You will understand the importance of self-mastery and the tremendous opportunities that live in every moment. You will appreciate that every day is a miracle and life is a special path that we walk on. It can be a nirvana or a nightmare - the choice is yours and yours alone. As British poet, William Wordsworth wrote: “All which we behold is full of blessings.”

**EXCELLING WITH THE PROGRAM AND IGNITING YOUR LIFE**

*For the purposes of action nothing is more useful than narrowness of thought combined with energy of will.*

Henri Frederic Amiel

There are no shortcuts to the success and pleasure you will receive when MegaLiving! becomes your habit. “Patience, the essential quality of a man,” wrote Kwai-Koo-Tsu. To get the exceptional results this program will deliver, the following points are important:

**Follow the program daily:** Reserve judgment on the success of the techniques mentioned for 30 days. MegaLiving! blends the most effective ideas for self-improvement from the West with little-known philosophies of the East. Many of the mental and physical mastery tools you will learn have been used by the sages of the Orient for over 5000 years. Some exercises designed to slow aging, tap your energy reserves and build mental clarity come from an intense study of the habits of the yogis living high in the Himalayan mountains of India. These methods might seem novel at first until you experience their remarkable benefits personally. Other techniques for personal effectiveness on issues such as time management and relationship-
building will seem more familiar to Western readers. Do not become discouraged if you do not see results on the first day. Studies have shown that it takes at least 21 days for perceptible changes to appear in your life when you are trying to make improvements. Each day you follow the program, you will feel better, perform better and achieve more. By making small, daily changes on a gradual and consistent basis, your enthusiasm will increase as will the visible results. Small victories always lead to large victories.

A missed day following the principles which immediately follow and the techniques in the 30 day program at the end of this book does not mean you will remain where you are. Letting a day slip by without doing something, no matter how small, to improve the quality of your life will mean that you are falling backwards. Again, do not miss even one day of this revolutionary program - daily study and application of its principles is key to dramatic success and the conditioning of your mind, body and character. Some days will be harder than others. Discipline is built by following through on these “low energy” days. Soon they will be few and far between. This is the nature of will.

**Work hard on this life mastery program:** This is your best chance to reshape your world and become an elite performer on the playing field of life. Use the SuccessLog provided at the end to chart your daily progress, your thoughts, your aspirations and successes. Throughout the day, review the principles and use the strategies provided. On the subway, in the car and in the shower, mentally repeat your commitment to enhancement of all areas of your life.

**Publicize your commitment to MegaLiving!:** Tell your family and friends that you will follow through with the program and that they will notice dramatic changes in you in the future. Inform them of your goals. Make a public declaration of your commitment to being the very best you can be. This is an excellent way to get leverage and motivation on the dreams and desires you hold. No one wants to look like a failure or like a person with no willpower and persistence. A little pressure will stimulate you to positive action.

The key to success with the principles of MegaLiving! is to run your own race. Do not compare yourself and your progress to others.
You are special and have your own gifts and virtues. As the ancient Eastern proverb says: “There is nothing noble about being superior to some other person. The true nobility lies in being superior to your previous self.”

By implementing the ideas you will learn daily and making small, consistent changes, your personal energy and desire will snowball and soon take on enormous dimensions. By charting the progress in the SuccessLog at the very end of this book, your interest and enthusiasm will increase. And by publicizing your commitment to the course, you will get tremendous leverage for your ultimate aspiration: a perfect life and total self-mastery.
